Synx Portable Crack + Free [2022-Latest]

"Synx" is a desktop application designed to help you to synchronize between your mobile device and your computer. You can choose from the default "Sync with Desktop" or "Sync with Google Drive" options to automatically copy files to and from your phone to your computer. "Synx" is a desktop application for Mac and Windows that allows you to connect to your phone from your computer and synchronize your files! Synx has two modes: "Sync with Desktop" and "Sync with Google Drive". It can automatically backup and restore your settings, your photos and your SMS messages. It has multiple backups with options to restore to specific backups. If you want to you can also choose to "Sync with Google Drive" and upload the files directly to Google Drive. You can even choose whether you want to automatically push them to your desktop PC or just to choose the PC they can be sent to. Synx has multiple options for you to chose from. You can choose to sync files and/or settings, you can choose to use your Google Account to sync files with Google Drive, you can choose to restore your device to a previous backup, you can

choose to do a full backup and restore to a previous backup, you can choose to do a backup and restore to a specific location (such as "/mnt/sdcard/Android", "/mnt/sdb/Android" or "/mnt/sdcard/Android/Ava"), you can choose to list file extensions, you can choose to move and move duplicates and you can choose to "Sync & Backup" for a specific folder. You can choose to sync a specific folder within your Android device. You can also choose to only sync certain files or settings. Here is a list of features in Synx that should help you to decide if "Synx" is the perfect fit for your needs:

- Sync & Backup
- You can sync and backup all (or only certain) items such as: Photos, Music, Videos, SMS, Contacts, Call History, Apps, Bookmarks, App Data (which includes: Data, Logs, Code), Calendar, Notes, Voice memos, Messages, Bookmarks, and documents.
- You can also choose to exclude specific folders from a backup and restore.
- You can choose to delete specific items from your backups at any time.
- You can choose to setup a backup and restore for a specific folder, such as "/mnt/sdcard/Android".
